

## X. HEALTH, SAFETY, SECURITY and ENVIRONMENT (HSSE)

The CONTRACTOR shall comply with all legal provisions concerning safety, security, the environment and hygiene which apply during the execution of the contract and in accordance with relevant local and international legal regulations.

The CONTRACTOR needs to have valid permits, certificates and licences for the products he is delivering and/or the services he is performing.

### □ **Safety Guide for High Risk Contractors**

High Risk Contractors must execute the CUSTOMER's works in compliance with [KPX's Business Management Policy, covering Safety, Security Health & Environmental aspects](#) (see enclosure **X**) and Safety guide High Risk Contractors. This Safety Guide and its attachments are a part of this contract (see enclosure **Y**).

### □ **Safety Guide for High Risk Suppliers**

High Risk Suppliers must execute the CUSTOMER's works in compliance with the KPX Additional purchase conditions for High Risk Working Equipment. This document is part of this contract (see enclosure Z).

### □ **Security**

The CONTRACTOR shall report security breaches – involving the Q8 name – to the customer immediately.

### □ **Emergency Planning**

The CONTRACTOR shall have an emergency plan at its disposal; 'continuity planning' and 'emergency response' are two important components of this plan.

### □ **Special HSSE requirements or conditions**

- [\[This is the place where additional specific HSSE requirements or conditions for this specific contract can be added\]](#)

### □ **Information duty**

The CONTRACTOR is to inform its personnel and other relevant persons for whom he bears responsibility (like subcontractors and visitors of the works) about the HSSE requirements and rules referred to in this contract. The CONTRACTOR must be able to provide evidence that this has been carried out.

□ **Infringements**

Infringements of agreed Safety, Security, Health and Environment requirements and rules can lead to a suspension or termination of the contract.
